

CHINA ANNEXES PART OF PORTUGAL SACRED GOAT OF THE P. A. C. NOW REPOSING IN THE CELESTIAL CELLAR

Batting averages were fattened as carefully as Christmas turkeys yesterday, when the All-Chinese gave the highly touted Portuguese the worst drubbing of the season. Two home runs off the bat of La Mere, and four slashing hits by "Chief" Akana, one a four bag clout, were the batting features of a very one-sided contest.

The game only lasted half an inning. In their half of the first the Chinese chased six men across the rubber, and it was all over but the shouting and cushion throwing. Just for good measure and batting practice the Chinese collected a brace in the third and three more in the fourth. While in the sixth they made their eighth and last tally. The Portuguese hit in a run in the first, and La Mere's above mentioned homers in the third and fifth gave Manager Parese's white hopes a grand total of three on the score board.

One of the biggest crowds of the season turned out, for on paper the game looked close and interesting. The Portuguese took the field first and played as though every member of the team had jabbed his arm with the needle. Captain Freitas topped the mound for a starter, and was batted all over the lot, having seemingly nothing on the ball. On top of this fusillade of bingles the team cracked badly behind him, piling up a total of four errors in that one frame. It was a sad exhibition and the fans who had hoped for excitement settled down to try and extract comedy from the subsequent proceedings. Later in the game the Portuguese steadied down, but the damage had been done, and the Chinese were never in danger of being headed.

Freitas yanked himself out in the fifth, Bushnell going into the box for short. He held the Chinese to three hits and one run for five innings, besides retiring four men by the strike-out route, showing that the "beaning" of a month back hasn't impaired his effectiveness as a pitcher. Apau Kan, the big fellow, pitched a good game for the Chinese, being touched for six scattered hits, and fielding his position in impressive style. For such a hefty player Kan is certainly some mover when bunts and grounders come his way.

The story of the game is the story of the first game. En Sue got to first when Freitas misjudged an easy pop fly right in front of the plate. Apau doubled to right-center, and when the ball got by the fielder En Sue crossed the pan. Albert Akana was safe on La Mere's error, and Kan Yen's hit scoring Apau. Akana stole third and scored on La Akana's hit.

KAM SENIORS BEAT ALUMNI

The football season at Kamehameha school was brought to a close Saturday afternoon when the senior team met the alumni eleven on the Kamehameha athletic field, and defeated them by a score of 6 to 0. Cheered on by their classmates who lined the field, the Seniors took the lead at the start and toward the last of the second quarter succeeded in getting the ball over the line for a touchdown, failing, however, to kick goal.

The Alumni team played well, but their weak spot seemed to be on the defense. Several times they were within ten yards of the Seniors' goal line but were held back and were unable to score. Captain Godfrey, at halfback, did the greater part of the ground-gaining, and Eben Cushingham, at fullback, pulled off a dozen punts and easily outkicked the Seniors' artist. On the line, A. Boyd, who played right guard, outshone the others with his tackling and getting down the field under punts. For the Seniors, Captain Kalelali, at quarterback, made the only score during the game. In the last part of the second quarter, the Seniors had advanced the ball by a series of end runs until it was within seven yards of the Alumni's goal line. Three downs netted them a gain of about four yards, and in the last down the "Little Esqui" took the ball and rushed through center, planting the oval back of the pigskins. His long runs were also another feature of the game.

There was a lot of good yelling done by the cadets in which the students of the girls' school joined with a will, and between the quarters and

MAINLAND PAPERS THINK SIR THOMAS IS SPRINGING NEW ONE

A press dispatch from New York states that while in that city Sir Thomas Lipton spoke enthusiastically of reviving interest in ocean yacht racing, and expressed his intention of giving a gold cup for an annual race from San Francisco to Honolulu, together with an endowment fund to provide suitable medals for the winning captain and crew.

It would seem from the wording of the story that Sir Thomas is overlooking the fact that there is already a biennial yacht race across the Pacific, with Honolulu as the objective, and that this race has become a classic that is known the world over. Surely the sporting baronet can not be thinking of establishing another race, which if sailed every year would make a double event every other year. Nor is it likely that Sir Thomas would try to detract from the importance of the present event.

It is more likely then, that the Irish yachtsman has in mind the presentation of a cup for the regular trans-Pacific race, and that his statements in New York were twisted by correspondents unfamiliar with the real conditions in regard to the yachting fixture.

NOTED ARTIST SUED.

NEW YORK, Dec. 12.—Filing of a suit for divorce today against George Burroughs Torrey, one of the foremost portrait painters in America, for whom President Taft sat recently, will be the first intimation to members of the artist colony and friends of Mr. and Mrs. Torrey that Mrs. Almirita Howes Torrey is now occupying her husband's residence at 27 East Thirty-fifth street, while Mr. Torrey is living at the Vanderbilt hotel.

It is reported that Dr. Israel, a famous European physician, received \$25,000 for removing a tubercular kidney from the 8-year-old heir of the Czar.

NAT CARTMELL TO SUCCEED MURPHY AS TRAINER AT PENN.

PHILADELPHIA.—Mike Murphy, athletic trainer at the University of Pennsylvania, will spend the winter months in the south. It is not expected he will be willing to assume his duties at the university next spring. Nat Cartmell, former intercollegiate 100 and 220-yard champion and the best sprinter ever produced by Pennsylvania, is slated to succeed him. During the past few years Murphy's strength has been greatly sapped. The north is entirely too cold for him now. The humid heat in the summer time also weakens him. He has been spending the summer months in Westboro, Mass. After his return from Sweden, Murphy was in poorer physical condition than at any other time in his life. The absence of Mike Murphy from Franklin field makes it an absolute necessity that another trainer be secured by the University of Pennsylvania, at least for the track team. With this idea in view the track committee, of which Dr. J. Kennedy Hill is chairman, met recently and discussed the names of a half-dozen possible candidates. Cartmell was finally selected. He has a contract with the University of North Carolina which has another year to run. He intends to fill that contract, but if he is needed at Pennsylvania next spring in the event of Murphy's continued illness, he will give time to the intercollegiate championships at least. Cartmell had his college athletic start under the famous coach. When he was in his prime he scored many victories in the intercollegiate championships. For three years he annexed two sprint events and until he graduated appeared to have things all his own way in that capacity. He made the 1908 Olympic team, and, though he failed to be placed among the winners, he landed a place.

SEEN FROM THE PRESS BOX.

Dobsky was called on to umpire in the field, and worked hard, although a couple of his decisions at first were very rank. He called Lai "in out" in the third, and Flizer safe in the eighth, and in both cases it looked as though there was a big margin the other way. Henry Chillingworth umpired behind the plate and was very good on balls and strikes.

The low sun bothered the second baseman and center fielder to considerable extent. Several balls that would usually be easy picking were completely lost and fell clear.

Captain Akana pulled off a clever delayed steal of third base in the first inning. Sam Hop says he learned the trick from Ty Cobb.

La Mere's first homer was made on the first ball pitched to him.

Two singles, a double and a homer were "Chief" Akana's record for his first four trips to the plate. The fifth time up he hit a long fly to left that Zamiska had to run his legs off to get.

Kan Yen had plenty of exercise yesterday. He started at short in the Asahi-C. A. U. game, and then went behind the bat and caught a swell came in the closer.

La Mere was much peeved, throwing his glove to the ground in disgust, when he tagged Lai Tin at third in the sixth, and Chillingworth called the runner safe.

In spite of the sun, Madeira made some pretty catches in the center garden.

August Joseph replaced McCarthy at second in the fourth.

Flizer made some good stops of high ones around the initial corner.

For news and the truth about it, people buy the Star-Bulletin.

CHINESE JUNIORS HAVE LEG ON PENNANT

The Chinese Juniors cleaned up yesterday afternoon in the first game of the pennant series of their league, against the Asahis. Up to the fifth inning it was a real ball game, with clever playing by both teams, but in that frame the C. A. U.'s broke through with four runs, and clouted four more men across in the seventh and another in the eighth, for good measure. When the dust finally cleared, the score was 11 to 1 in favor of the Celestials.

The Chinese plainly outclassed the Japanese, being especially effective with the stick. It was this ability to hit in runs that won the game for them. Three of the regular All-Chinese team, Kan Yen, Sing Hung and Luke Yee, are members of the C. A. U., and their experienced playing makes the club quite a formidable organization.

RACE MEETING IS BIG SPORTING EVENT

From Now Until Wednesday
Night Horsemen and Auto-
Owners Have Plenty to Talk
About and Plenty to Do—The
Track Is in Good Shape

The New Year's races at Kapiolani park are in the sporting spotlight just at present, and from now until the flag falls for the last time, horsemen and automobile speed burners will have plenty of chances to fan over coming events. From the present outlook the meeting should be a big success, for it has received enough publicity to allow the general public to get a good line on what is coming, and if the weather behaves itself for the day, a record crowd should be on hand.

The track is in better shape than it has been for a long time past, and now the finishing touches are being put on it, so that it should be fast for both the runners and the trotters. These in turn will do little damage from the motorists' standpoint, so that all the principal events scheduled for settlement should be run under favorable conditions. Autos, however, must keep off the track from now until they are called to the starting line. For several days past the carpenters have been at work on the fence that will protect the crowd at the finish, and that will at the same time give riders and drivers, and especially the men behind the wheels of the big auto racers, a chance to give better exhibitions by the removal of the responsibility attendant on driving on an open track. During the last motor races there were several times when a accident at the first turn looked unavoidable, due to the crowding in on the course of persons who did not realize the danger, but with a stout fence to guard the track, better time can be made and better sport assured all around.

The horses that are entered in the various events are all in training, most of them near the track, and there have been no work-out accidents to put a damper on the proceedings. According to the rail birds, some fast distances have been clocked.

As to the motorists, George Hockley and the crew of the American, reinforced by a battalion of mechanics and helpers, is tuning his entry to just the right pitch while the whole staff of the von Hamm-Young garage spends its time petting the big peerless that will carry the colors of the concern. There are two auto races, a mile and 15 mile event, and the thrills should come thick and fast.

Reserved seats are now on sale at M. A. Gunst & Co., and everyone is urged to buy well in advance so that the committee can get a line on the probable attendance.

TOSSING THE CABER IS STRENUOUS SPORT

One of the strangest and most ancient games of Bonny Scotland is throwing the caber, than which there is probably no more severe test of muscle and skill. The game has been played by the hardy Scots since the earliest times and is still one of the feature events on the programs of all athletic contests. The caber is a long section of tree trunk, tapered so that it is noticeably smaller at one end than at the other. The man who essays to test his strength by tossing it raises the pole to a vertical position in his hand, smaller end down, and then throws it into the air and away from him. He must make the large end of the pole hit the ground and the small end fall in such a way that the small end will describe a half circle. The prize goes to the man whose caber, having been thrown in the manner described, lands on the ground with its smaller end farthest away from the throwing point. A picture of a Scotchman throwing the caber appears in the January Popular Mechanics Magazine.
